Between Bridges is pleased to host a workshop led by **Davide Camplani**, founder of **Creative Educational Movement**, dancer and choreographer. Limited to eight participants, the workshop explores initial sparks of inspiration. The investigation will be based on how images shape our inner responses and how these can be expressed through movement in space.

Using free improvised movement composition, participants will draw inspiration from a work by artist **Wolfgang Tillmans**, exploring how the eyes, heart, and body can connect through movement.

The workshop, held in simple English, is open to participants aged 18 and over, interested in creative movement. The fee is 80 euros for two days (participation for one day is not possible), payable only by bank transfer.

For questions and registration before the **14 October 2024** please contact: info@creationalmove.com
